

Case Study

Book Bolt

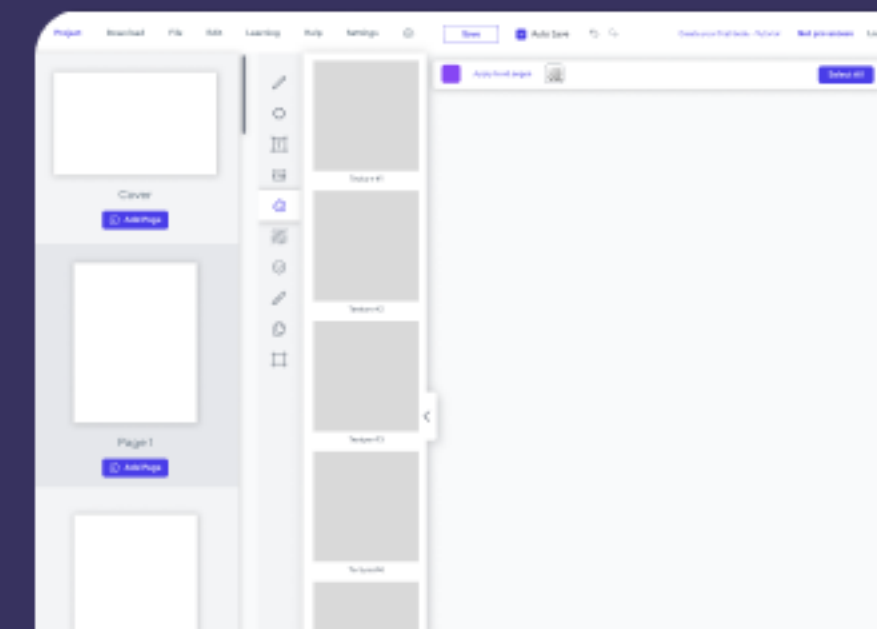

Company Overview

Book Bolt is an all-in-one software solution designed to empower entrepreneurs in the low-content and no-content book publishing space. Built with Amazon KDP users in mind, the platform allows creators to research niches, design covers and interiors, and publish journals, notebooks, planners, and more—without ever writing a single page of traditional content.

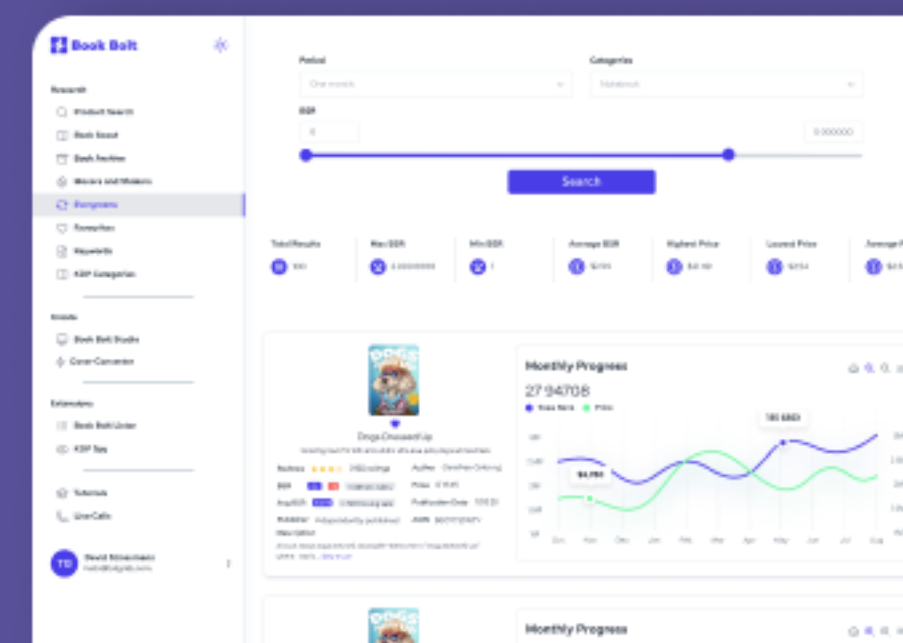

Refreshing Design

We enjoy working with discerning clients, people for whom quality, service, integrity & aesthetics.

The Challenge

Despite strong interest in the product, Book Bolt faced several core growth challenges:

- Rising Customer Acquisition Costs (CAC)
- Plateauing Subscription Growth
- High User Churn

To ensure long-term growth and profitability, Book Bolt needed a scalable customer acquisition strategy and a robust system to improve user retention.

Our Goals

Lower CAC through
more efficient and
scalable marketing
channels

**Increase Customer
Retention** by improving
user engagement and
lifecycle communication

Our Approach

Paid Search & Social (PPC)

We rebuilt Book Bolt's paid media funnels from the ground up:

- Full-funnel campaigns on **Google and Meta**
- Smart audience segmentation and precision **retargeting**
- Ad creatives aligned with different **stages of the user journey**

Affiliate Marketing

Launched a complete affiliate program, including onboarding, tracking, and tiered rewards

Consistently generated 4+ dedicated YouTube influencer videos per month

Recruited niche-specific influencers in the KDP and passive income space

Built and nurtured a growing creator pipeline

UI/UX & Brand Redesign

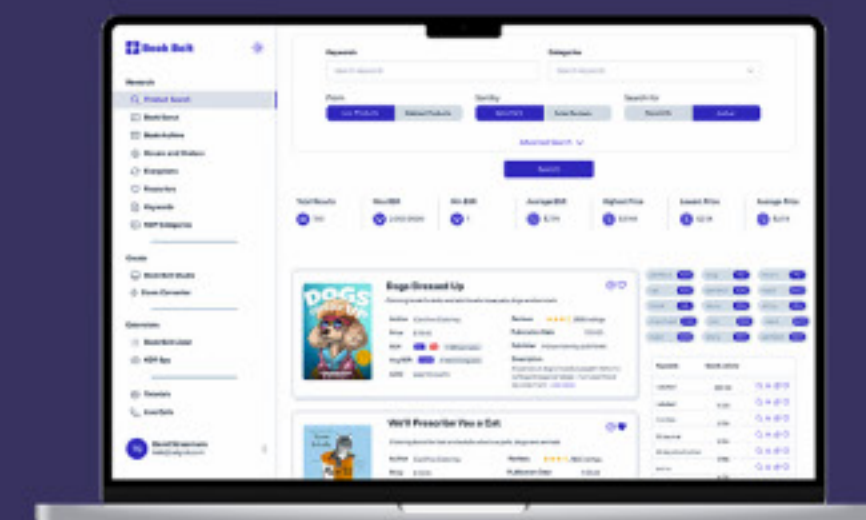

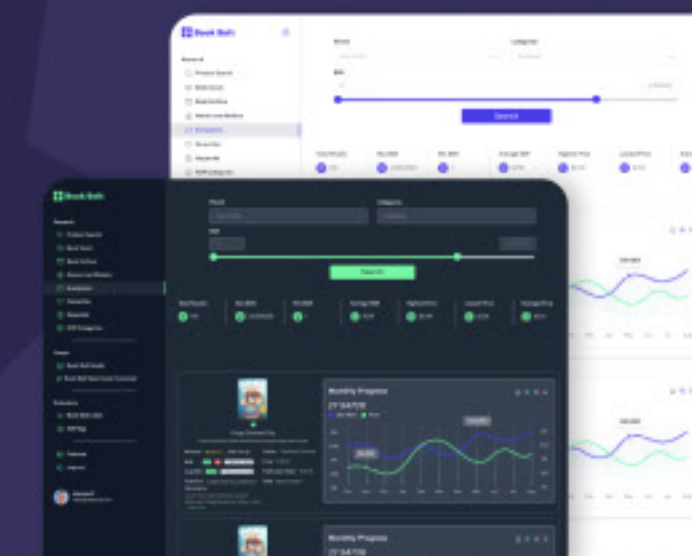

- Redesigned the entire platform UI, improving usability and visual appeal
- Refreshed brand identity (logo, typography, and color palette)
- Overhauled the marketing website to reflect the new brand and follow CRO best practices
